Forture, or chance, has period a major role in Simon Fraser Publical Science biolessor Or, Maurice Halperin's nearly seventy years of Ma.

If was chance that composed him, to seek employment into the National University of Mexico. It was chance that earned him a three-year post in Moscow. It was chance that led him to a reaching sont in Cuba. And it was chance that body him to Simon Praser seven years ago.

In that, fortune began warrang its districtions influence over his tip even before Or, Hassans was born.

"I might have been born in Canada," he says. "My father sailed from Liverpool to the New World at the turn of the century, with Montreal as his desanation. However, he decided to move on to Boston."

This was a Trether fortunate organistance over which I had no control," since Montreal at the bine was still a provincial city white Doston was "a mercooks, a great centre of culture and learning and at its spended facilities were available to ma."

Among those theilties which he made use of were the Eoston Latin School — a secondary school which boasts such luminones as Benjamin Franklin and Raign Waldo Emerson among its alterni — and Humand University.

He completed his post-products work in Paris at the Sonbonna which, at that time, was the most practigious university in the world and "the impact at had on my way of life and thinking was a permanent ope."

White ettending the Schoome, Dame Fortune stepped in and "I was appointed to the faculty as a fleader in North "American Civilization. Even though I came from Harvard, the level of competence and scichistacion of the French students was much higher and I had to work very hard to keep up with thom."

After completing his doctorate, Or. Halperin joined the faculty at the University of Catalogue and found that midwestern state to be "tile another country. Sestion and Paris wors much closely resized than were Boston and Oxidioma."

However, chance intervened to rescue him from what could have been a number of notiferent years in a linen small and remote university on the American Prairies, turning them Into years spent in Tan cases of high culture."

"It was during the Depression and jobs were scarce, so the university attracted a number of bright teachers and researchers whose arist choose might not have been Oklahona.

"And when you have a group of people like that, in addition to the opportunity of unconstanding and learning to appreciate the visities of monte America, seek it was something that otherwise with the first of the rest of the first of the f

Strategic Services, a special research and intelligence agency attached to the Joint Chiefs of Staff;

"I had a front row seat in the planning of some of the most interesting operations of the war," he says. "I consider my expenences there were at least the equivalent of a second PhD because I was associated with a whole group of social scientists in different disciplines.

"Through this, I had the realization that we had practical matters to consider in the social sciences, as well as theoretical ones. And I learned the value of co-operative effort the value of getting work done on time, and the value of efficiency in research.

"If habed me to see the relaboration between the social sciences and practical problems. I became more oriented toward problem solving than I had been helder."

Dame Fortune keeps popping up in life of SFU's oldest professor and has taken him to Mexico, Cuba, Moscow — and to 'best place of all'

After the wor, Dr. Halperin worked with the United Nations for a couple of years and then joined the faculty of Boston University where he was involved in the establishment of an interdisciplinary department of Latin American studies.

During this period he visited Brazil twice, tecturing at the University of Sao Paulo and serving as a consultant to the state government of Sao Paulo. After his second visit, he was decorated by the Brazilian government with the Order of the Southern Cross.

It was then that chance interfered again, this time in a most matches way.

"My stay at Boston coincided with the most intense period of McCarthyism and this raised problems for a great number of people at the time. In my own case, I was given the choice of co-operating with the inquisition or, as it turned out, lealing my job.

"Among other disagreeable aspects of co-operating, it would have turned me into an informer against people who, as far as I know, had committed no crime. I just couldn't think of fecing my students with their knowledge that I was an informer."

Leaving Boston University, he went to the National University of Mexico City where he remained for six years. While working there, he did some consulting work for the Mexican government, thereby gaining further practical experience on the problems of underdevelopment in Latin America.

This experience led directly to his next position — a threeyear appointment at the Academy of Sciences in Moscow, Halperin explains:

"At that time, the period when Kruschev was trying to loosen up some of the rigid controls of Stalin's dictatorship, there was a desire at the Academy to have some western expertise on Latin American developmental problems. In other words, my Mexican experience was a direct prerequisite for the Moscow Invitation.

"It's strange how, in retrospect, what seemed to be a rather difficult choice in 1953 turned out to be very lucky. You never know. Something happens that can crush you or, on the contrary, can make you healthier and more robust than you've ever been before.

"And, when the invitation came from Moscow, I was foot-loose and free. My status in Mean, was always that of a visiting professor, so I had no probable of security—tenure or pension, for example—to the marrown when it eams, I had nothing to lose and everything to gain."

Dr. Halpurin spent three years at the Academy and found it to be an extraordinary experience. "I wasn't there as a tourist; neither was I there as an outside researcher. I was actually in the machine, with no permanent ties to it. I was working in the factory, rather than just studying it."

Fato enco again intervened in his life, this time in the form of the celebrated Latin American guerrilla leader. Che Guevara.

"Late one night, there was a knock on my deer and it opened it and there stood Che with a couple of his Cuban friends. He had been told about me by mutual friends in Mexico and they suggifisted that, in view of the need for competent educators and social scientists in Cuba, it might be interested in accepting an invitation to teach at the University of Hayana."

As it happened, Dr. Halperin was interested. He spent the next six years in Cuba, and after leaving, produced a book on the country — The Rise and Decline of Fidel Castro: An Essay In Contemporary History. It was published by the University of California Press and a second ection, in paper-back, has recently appeared. (Incidentally, Cr. Halpern's published work spans 45 years and "several thousand pages.")

As with the Moscow appointment, it was the fact that he was freed of concerns about job security, since he had none, by which allowed him to accept Guevara's offer.

Although Cuba was "a very pleasant country," Or, Haliperin found life there to be somewhat discencering since, "as a highly-paid foreign expert, I lived high off the hog and didn't share the austerity of the rest of the country.

"And it was troubling, you know, when neighbors would knock on our door to see if we could spare a thimbleful of salt or a tablespoon of cooking oil and there we were, sitting with everything at our disposal."

And a further quirk of fate, naturally, brought him to Simon Frazer in 1968. He'd met a Canadian white in Havana and one dey, about a year later, he received a phone out "from a niace colled Burnaby." It was the same Canadian, involving him to participate in a seminar on Latin America, with "all expenses paid."

When he received the invitation, in the spring of 1968, he had already resigned his position in Havana and was plenning to return to the United States the following Sestember, "When the invitation came, I thought, "Two weeks? Why not?", so I accepted and came up here and, like the man who came to dinner, they couldn't got rid of me.

"I never dreamed I would end up in Canada Three-quarters of a century after my father left it, but I now feel thoroughly assimilated to the Canadian environment." In fact, he's so well assimilated that he is now listed in the Canadian edition of Who's Who.

Ouring his well-travelled life, Or. Halperin has had the eppertunity to teach at a number of reputable institutions in North America, Europe and Lotin America but he says that he's "never been in a more congenial place than Simon France, never in my life.

"It's the best place, all in all, that I've ever balls. Students and faculty have if very good here and I'm not to'k no only about the splendid scenery and the mild chapte. It is entities for learning, teaching, research and recreating, in a steady customer at the swimming pool and the research know—are magnificent."

TO WELL BUILD BUIL

"COMMENT", Dec 75 issue (alumni regarine of Simon Fraser University in British Colombia.)

Cy Rick Hyda

Fortuno, or chance, has played a major role in Simon Fraser. Political Science professor Or. Maiince Halpenn's nearly seventy years of ide.

It was chance that compelled him to seek employment with the National University of Mexico, it was chance that earned him a three-year post in Moscow, it was chance that led nim to a teaching stint in Cuba. And it was chance that brought him to Simon Fraser seven years ago.

In fact, fortune began wielding its capricious influence over his life even before Dr. Halperin was born.

"I might have been born in Canada," he says. "My famer sailed from Liverpool to the New World at the turn of the century, with Montreal as his destination. However, he decided to move on to Boston."

This was a "rather fortunate circumstance over which I had no control," since Montreal at the time was still a provincial city while Boston was "a metropolis, a great centre of culture and learning and all its splendid facilities were available to me."

Among those facilities which he made use of were the Boston Latin School — a secondary school which boasts such luminaries as Benjamin Franklin and Raiph Waldo Emerson emong its alumni — and Harvard University.

Horsempleted-his post-graduate work in Pans at the Socionn which, at that time, was the most prestigious university in the world and "the impact it had on my way of ite and thinking was a permanent one."

While attending the Sorbonne, Dame Fortune stepped in and "I was appointed to the faculty as a Reader in North American Civilization. Even though I came from Harvard, the tevel of competence and sophistication of the French standers was much higher and I had to work very hard to keep up with them."

After completing his doctorate. Dr. Halperin joined the faculty at the University of Calahema and found that mis-western state to be "like another country. Soston and Paris were much closely related than were Boston and Oalahoma."

However, chance intervened to rescue him train what could have been a number of induferent years in a then small and remote university on the American Prairies, turning them into years spent in "an oasis of high culture."

Dr. Halpenin explains:

"It was during the Depression and jobs were scarce, so the university attracted a number of bright teachers and researchers whose first choice might not have been Oktahoma.

"And when you have a group of people like that; in addition to the opportunity of enderstanding and learning to appreciate the virtues of micros America, well, it was something that stayed with the for the rost of my Me."

The Second World War interrupted Dr. Haberin's sojourn at the University of Oklahoma and he joined the Office of

"I had a front row seat in the page of some of the most streetstrig operations of the war." his says. "I consider my expenences there were at least the equivalent of a second PhD because I was associated with a whole group of social scients to different discounces."

"Through this, I had the recusation but we had practical matters to consider in the social sciences, as well as theoretical ones. And I learned the social co-operative effort the value of getting work done on adea, and the value of ethiciency in research.

"It nelbed me to see the relationship between the social sciences and practical problems. I became more criented toward problem solving than I had been before."

Dame Fortune keeps popping up in life of SFU's oldest professor and has taken him to Mexico, Cuba, Moscow — and to 'best place of all'

After the war, Dr. Halberin worked with the United Nations for a couple of years and then joined the faculty of Boston University where he was involved in the establishment of an interdisciplinary department of Latin American studies.

During this period he visited Brazil twice, lecturing at the University of Sao Paulo and serving as a consultant to the state government of Sao Paulo. After his second visit, he was decorated by the Brazilian government with the Order of the Southern Cross.

It was then that chance interfered again, this time in a most malicious way.

"My stay at Boston coincided with the most intense period of McCarthyism and this raised problems for a great number of people at the time. In my own case, I was given the choice of co-operating with the inquisition or, as it turned out, losing my job.

"Among other disagreeable aspects of co-operating, it would have turned me into an informer against people who, as far as I knew, had committed no crime. I just couldn't think of facing my students with their knowledge that I was an informer."

Leaving Boston University, he went to the National University of Mexico City where he remained to: six years. While working there, he did some consulting work for the Mexican covernment, thereby gaining further practical experience on the problems of underdevelopment in Latin America.

This experience led directly to his next position — a three-year appointment at the Academy of Sciences in Moscow. Halperin explains:

"At that time, the period when Kruschev was trying to loosen up some of the rigid controls of Stalin's dictatorship, there was a desire at the Academy to have some western expertice on Latin American developmental problems. In other words, my Mexican experience was a direct prerequisite for the Moscow invitation."

"It's strange how, in retrospect, what seemed to be a ratter difficult choice in 1953 tumed out to be very lucky. You never know. Something happens that can crush you or, on the contrary, can make you healther and more robust "than you've over been before.

"And, when the invitation came has Moscow, I was foot-bose and free. My status in Me. was always that of a visiting professor, so I had no problem of security — tenure or pension, for example — to the most awn when it came. I had nothing to lose and everything to cam."

Dr. Halperin spent three years at the Academy and found it to be an extraordinary experience. "I wasn't there as a tourist; neither was I there as an outside researcher. I was actually in the machine, with no permanent ties to it. I was working in the factory, rather than just studying it."

Fate ence again intervened in his life, this time in the form of the celebrated Latin American guerrilla leader, Che Guerra

"Late one night, there was a kneck on my deer and it opened it and there stood Che with a couple of his Cuban friends. He had been told about me by mutual friends in Mexico and they suggested that, in view of the need for competent educators and social scientists in Cuba. I might be interested in accepting an invitation to teach at the University of Havana."

As it happened, Dr. Halperin was interested. He spent the next six years in Cuba, and after leaving, produced a book on the country — The Rise and Decime of Fidel Castro: An Essay In Contemporary History. It was published by the University of California Press and a second edition, in paper back, has recently appeared. (Incidentally, Dr. Halberin's published work spans 45 years and "several thousand pages.")

As with the Moscow appointment, it was the fact that he was freed of concerns about job security, since he had none, which allowed him to accept Guevara's effect.

Although Cuba was "a very pleasant country," Cr. Hallperin found life there to be somewhat disconcerting since, "as a highly-paid foreign expert, I lived high off the hog and didn't share the austerity of the rest of the country."

"And it was troubling, you know, when neighbors would knock on our door to see if we could seare a thimbleful of salt or a tablespoon of cooking oil and there we were, sitting with everything at our disposal."

And a further quirk of fate, naturally, brought him to Simon Fraser in 1968. He'd met a Canadian while in Havana and one day, about a year later, he received a chone call "from a niace called Burnaby." It was the same Canadian, inviting him to participate in a seminar on Latin America, with "all-expenses paid."

When he received the invitation, in the spring of 1968, he had already resigned his position in Havana and was planning to return to the United States the following Sectember. "When the invitation came, I thought. Two weeks? Why not?", so I accepted and came up here and, the the man who came to dinner, they couldn't get rid of me.

"I never dreamed I would end up in Canada. Three-duciters of a century after my father left, it, but I now feel thoroughly assimilated to the Canadian environment." In fact, he's so well-assimilated that he is now listed in the Canadian edition of Who's Who.

During his well-travelled life, Dr. Halberin has had the opportunity to teach at a number of reputable institutions in North America, Europe and Latin America but he says that he's "never been in a more congenial place than Simon Fraser, never in my life.

"It's the best place, all in all, that tive ever below. Students and faculty have it very good here and I'm not talk on only about the splendid scenery and the mile climate. First ities for tearing, teaching, research and recreation on a steady customer at the swimming post and the in you know — are magnificent."

The Rise and Decline of Fidel Castro by Maurice Halperin

(University of California Press; \$12.95)

At the end of a passage describing the euphoric early days of the Cuton Revelution, Manusco Halperin lamente: Alas, it was occupant to change. In effect, this attitude symbolizes his reaction and accessment of Castro and Cuba, in this first volume of a two-part study of the revolution from the first days of Fidelismo to the present. A note of frustration which occasionally marks his pairative of the first five years of the revolution undoubtedly comes from his sense of the untultilled promise of the July 26th Movement. For a great many Western intellectuals (including Holpevin), this has been a characteristic reaction. In the first evulurant months, it seemed as if Cuba might become the first Socialist revolution to rise spontancously out of historical circumstances, not led by a rigid party structure, and the first to proclaim a "pyrous socialism," rother than the natures necessities of work norms. ideological conformity and sacrifice. After several years of living in Cuba. through its best and bleakest moments, Halperin feels that this possibility is extinguished. One feels that he wanted very much for it to succeed! His book is an explanation of why the revolution 1000

Although the current volume only covers the first five years of the revolution; the author breaks into the chronology to keep the next years' events in mind. Everything about the revolution was in flux as he sees it, but at the same time Castro's bungling, beauch and adventurism made surrender to a rigid, between cratic socialism almost inevitable. Nothing, from Halperin's point of view, could be a sadder rethermore flux devolution than the support Caba beat to the 1968 Soviet invasion of Creeches levekia.

Halperin's basic argument is that Castro's "rise and dictine" must be seen as on international event. For this reason be writes permande about the

foreign policy of the revolution tilie only patrice in the book shore Castro during his tool trip following Chiant. If it is occurate to say that the revolution was pushed leftward and finally into an alliance with the Soviet Union by the inept and hostile policy of the United States, then it is also true that Cuba's tate has continued to depend upon the international struggle between the US and the Soviet Union. While Castro may have been committed to Cuban nationalism and social reform at home, he could, ironically, only achieve these goals by means of an aggressive foreign policy.

Castro remains a vague and blustery figure while Che Guevara figures hardly at all. By placing his emphasis elsewhere. Halperin tells the story of the revolution through the events which touched it from the outside, particularly those which circled its fies to the Communist week. Most important were the Sino-Soviet struggle, the world price of sugar, the internal buneaucratic struggle of the USSR, the changing American presidency, the role of the Culon Communist Party, the CIA, and so on. Cathering his facts, primarily from magazine and newspaper articles, plus his own first-hand knowledge of events, he pieces together a fascinating reading of Castro's 'speeches, policy changes and their context. The shifting and rather indecisive attitude of the revolutionary leadership toward artistic and intellectual liberty, for example, has stemmed from Castro's need to balance conflicting demands; for orthodoxy by Culsan and Russian Communists, and for greater needoms by Western intellermeis

Castro's differente havialways been to assert Cultur independence, and yet retain alignment with the USSR, Perhaps this connecticity policy was deemed, if the no other reason than Cultu's ensurance dependence upon other nations to about her pushing

and provide her with energy. In any case, when Castro opted to exploit the Cold War and let Lhrushchev foot the bill, he created the crisis which Halperin pinpoints. He made the economic sucress of the revolution at home an absolute necessity, yet a necessity that could only be met with outside help. Castro's own impatience, inefficiency and indecision made, matters worse, From the early attempts to industrialize to the abrupt and devastating decision to produce a mammoth sugar crop in 1970, the Cuban economy, the author argues, has continually sunk to lower levels. The result is Castro's dependence. upon the Soviet Union, an admission of failure.

Halpenin's emphasis on foreign affairs makes good sense, but leaves little room for discussion of the internal dynamics of the revolution and of the impact of social reforms on the population. It makes what Castro said and did, and the revolution itself, explicable only in a sort of code of international affairs. However, given the volatile nature of Cuban politics and the Cold War, it still seems too early to write off the revolution.

The Rise and Decline of Fidel Castro Maurice Halperin

The author of this unusual book was twice forced out of teaching positions at American universities because of his political beliefs. He spent three years on the faculty of the USSR Academy of Sciences and five years, from 1962 to 1968, at the University of Havana. He went to Cuba in 1962 on the invitation of Che Guevara, who had visited him in Moscow, and there gathered the materials for this intimate portrait of the Castro regime.

Mr. Halperin concentrates his attention on Castro's foreign policy, placing it in the context of domestic policy and conditions. Obviously skilled in reading the new socialist rhetoric, Professor Halperin guides the reader through the maze of documents, speeches, and propaganda which constitute the record of the Castro regime during the sensational events involving Kennedy, Khrushchev, missiles, and the ClA. Although the main narrative is concerned with the years 1959-1964. Drive is contained digressions into events of the following wears when according to the autherful contains digressions into events of the following wears when according to the autherful contains digressions into events of the

or, Castro's great utopian dreams turned into nightmares. A second volume, carrying the story down to the present, is in preparation.

Maurice Halperin is Professor of Political Science at Simon Fraser University, Vancouver, B.C.

"A brilliant contribution to the literature on contemporary Cuba and perhaps even more a remarkable series of insights into the new politics of mass society."

Dear RJ,

Maurice Hyman HALPERIN

Reference John W.'s memorandum to Joseph H. dated 4 November, 1969.

- 1. Unfortunately in your letter under reference you did not mention Subject's date of birth. Our inspection of Border Control lists show that two people have entered ISRAEL who might possibly be identical with Subject:
 - A. Morris H. ALPERN
 Father's name Solomon
 Born 1886, POLAND
 Holder of United States passport no. B-246607
 Visited ISRAEL from 20 May, 1964 22 June
 1964.
 - b. Morris Hyman HALPERIN Father's name: Henny Born 1886, POLAND Holder of United States passport no. A-1735875 Entered ISRAEL on 13 October, 1970.
- 2. Is Subject identical with either of the two above?
- 3. We should be most grateful for additional personal details on Subject.

SUBJECT: Maurice Byman HALPERIN ppoB: Boston, 3 March 1906

- 1. The source for the following information is a highly-sensitive, thoroughly-tested informant with knowledge of NGS activities in North America during the Second World War:
- A. Source knew that Maurice Hyman HALPURIN. Chief of the Latin American Division of O.S.S., was a valuable KGB agent while he was in O.S.S.
- B. Source knew three KGB officers who at various times during the Second World war were responsible for directing HALPERIN and other penetrations of the U. S. Government Vasilij Mikhailovich ZUBILIN aka penetrations of the U. S. Government Vasilij Mikhailovich ZUBILIN aka penetrations of the U. S. - 2. It is known from several other sources, including Elizabeth BENTLEY, that HALPERIN had been involved in communist activities since the late 1920's and had worked for the KGB during World War II.
- 3. HALPERIN refused to tell a U. S. Senate counittee if he had been a CP member and in 1953 he fled from the U.S. to Mexico. In 1958 he went to the USSR and allegedly worked for the Academy of Science and Moscow University. In 1962 he left Moscow and went to Cuba. He aided Alfred Kaufman STERN and Martha Dodd STERN to escape from the U.S.A. to Czechoslovakia in 1957.
 - 4. HALPERIN's career can be divided into the following periods:

Professor at the University of Oklahoma 1931-1941 c.o.i. - o.s.s. 1941-1945 Department of State American-Jewish Conference, handling minority 1945-1946 groups and acting as a liaison official with the U.N. 1946-1949. Boston University 1949-1953 Mexico 1953-1958 U.S.S.R. and Cuba Simon Fraser University in Burnaby, British Columbia. 1958-1968 1963-1969

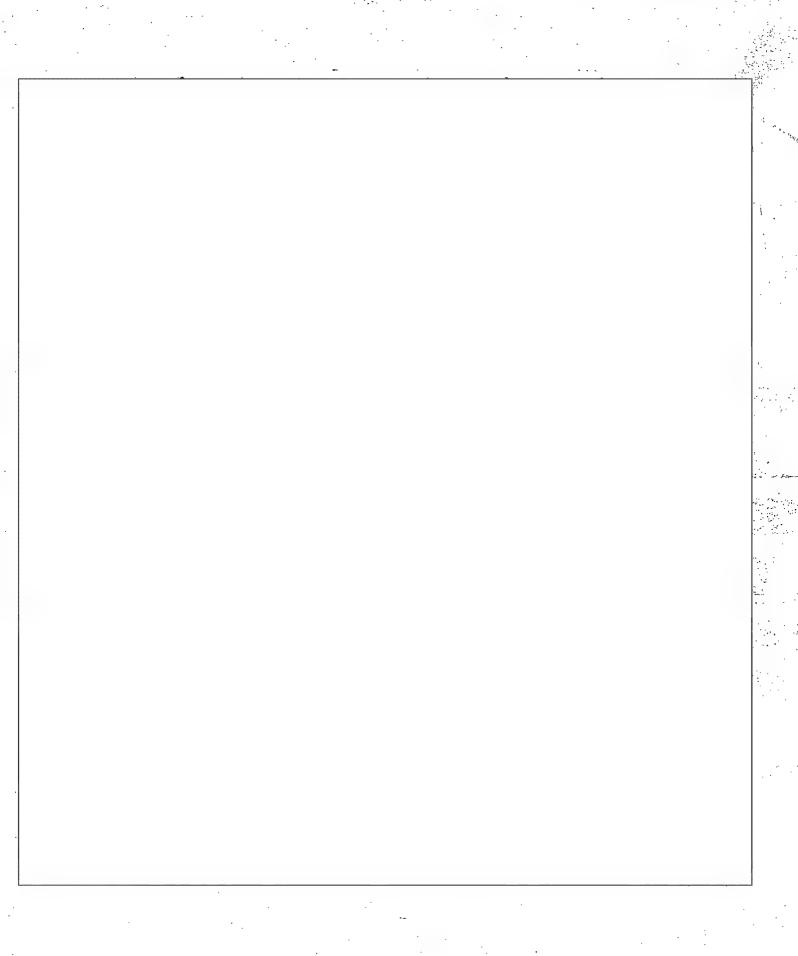

5. If HALPERIN agreed to cooperate, he would be an extremely valuable source on a number of topics, as is indicated by the outline of his able source on the most important topics, and the one in which we are career. One of the most important topics, and the one in which we are

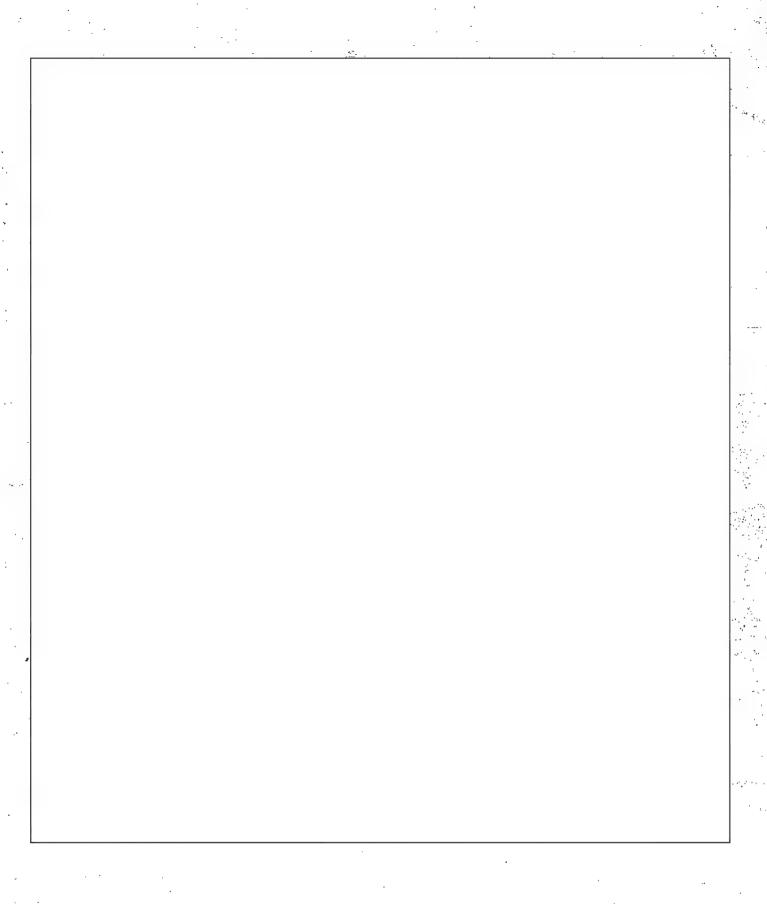

in the best position to check the validity of his information, is that of KGB penetration of the U. S. Government, especially O.S.S. and the State Department.

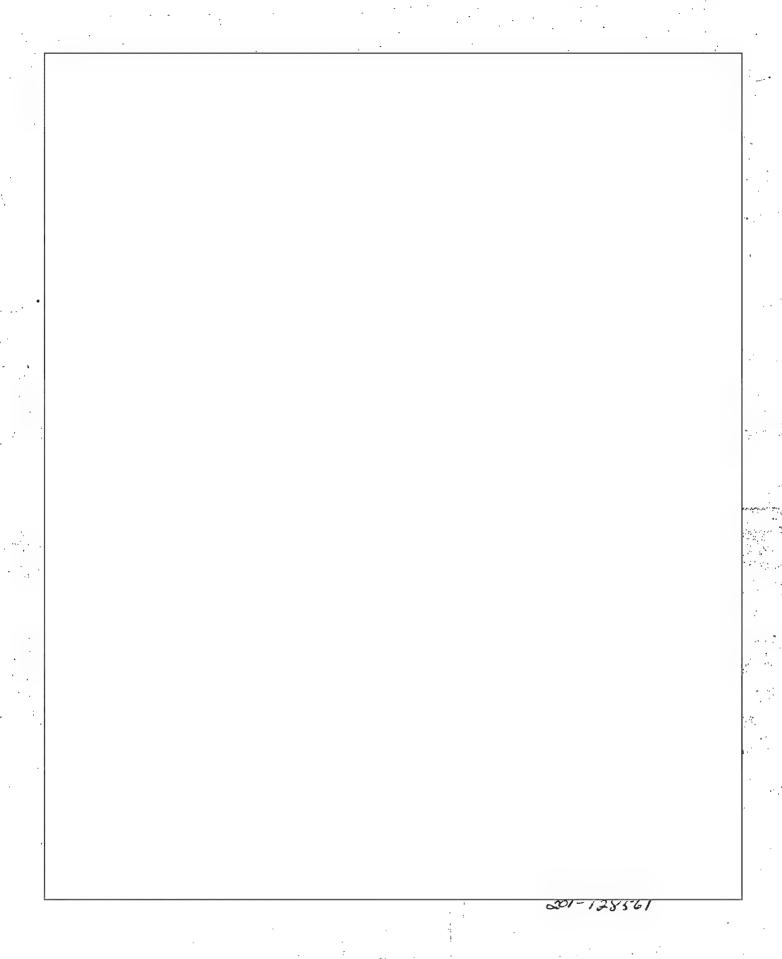

- 6. HALPERIN has indicated that he is now anti-Soviet.
- 7. HALPERIN's son, Dr. David HALPERIN, lives at 5309 South. Harper Avenue, Chicago, Illinois.
- 8. HALPERIN's daughter, Judith GAMORON, and his son-in-law Rabbi Hillel GAMORON, reside at 617 North Witcomb Drive, Palatine, Illinois.
 - 9. HALPERIN is quite deaf.

EX - 786 5 December 1966

MEMORANDUM FOR THE RECORD

SUBJECT: "American Defectors to the USSR"

- 1. The attached material was part of a soft file entitled "American Defectors to the USSR", which was set up by SR/6 (Support) around 1960 and maintained by various SR components until ca. 1963. The compilations were derived from a variety of sources, and contain both classified and overt data.
- 2. In the fall of 1966, the files were turned over to CI Staff. In most instances, basic information was then abstracted for the US Defector Machine Program. In all instances in which the material was unique, or represented a valuable collation effort, it has been incorporated into the appropriate 201 file, along with a copy of this memorandum.
- 3. It is suggested that any dissemination of this data should be coordinated with SB Division and with CI Staff (CI/MRO), in view of the frequently inadequate sourcing and of the fact that disseminations have already been made through the US Defector Machine Program.

about their association with Sach Solde and Boris Horros. Halperin was very closely associated with them and instrumental in their setaway plans - he got their plane reservations without saving they were for the Steins until the last minute, etc. (ShD; IF Herald Trib 1 Sept 60)

Later in 1957 or the first half of 1958. Public disclosure of his role in the Stern affair caused him and his wife (Edith nee Frisch) to lose their jobs. She was a teacher at the American Cohool Toundation, while he worked in a Mexican Movernment bank and at the Mexico University National School of Political and Social Sciences. (SRS, Horton memo)

26 July 1958. They applied for US passports at the American Embassy in Mexico City. (CIE, Horton memo)

26 August 1958. Their passportts were issued. (SRE, Horton memo). This followed a 1958 Supreme Court decision that the State Benartment could not dery a passport because of communist or other political beliefs. (Wash Post, 1 Sept 60)

25 September 1958. Their massports were visaed by the Fexican authorities "to travel in Mexico in the status of immigrants," valid till 25 Sept 59: (SRS, DET-56611. By this time the Fexican Government had begun deporting US communists. (SRE, Horton memo)

13 October 1958. They departed dexico. (Horton memo and Wash Post, 1 Sep 60)

11 November 1958. They arrived in Czechoslovakia. (SRS, DEF-56611)

3 December 1958. They arrived in the USSR on tourist visas to firm up tentative job offer (the Soviets wouldn't commit themselves before he actually in USSR.) Job was visiting professor under Social Sciences Division of USSR Academy of Sciences, on contract till July 1961; no teaching, but research and handling student theses. Salary unfavorable since in rubles, but he hoped to compensate by getting experience and material for book; also use rubles for grand tour of USSR before departure. (CI/SIG and SRS, DSF-56611)

13 December 1958. They in Moscow as of this date but must have gone to Leningrad soon after, since he said his job was there at first. They moved to Moscow some time before July 1960. (SRS, DBF-56611)

15 July 1960. He and wife appeared at the American Mabassy Moscow to renew their passports. No excuse for not having reported in earlier. The passports were renewed for two years, to expire July 1962. They gave their legal address as Medellin 36, Mexico City; and their current address as Kutuzovski Prospekt 13, apt 127, Noscow. Halperin gave them the job information reported above under 3 December 1958 and indicated that they intended to leave the USSR upon expiration of the contract in July 1961. Both were frank about the shortcomings of Soviet life. When asked if they would return to the States in July 61, he said that their permanent address was Mexico. A daughter and her husband and children were visiting them until 3 July. (SRS, 1835-56611) 2h August 1960)

le Andrie and 5 pt 60. ... October 1960. The American Ambassy requested that he appear for an interview about just what his job was. He wrote on 30 Uctober saying that they were just lesving on vacation and swearing that his job was not in conflict with his US citizenship. A certain Max perger [not further identified] reported that Halberin was setting higher-than-usual salary and his passport, should be revoked. (SRS, DPA-1753, 6 February 1962)

Movember economic 1900. Halperin, "an identified foriet agent who left the US in 1900 [sie Tand is now in the Soviet Union," was to be head of one of the two new organizations founded during a Moscow conference of communist leaders: "office for permanent studies am cooperation with Latin American marties" to be organized by the Communist Parties of American, prazil, and Cuba, and to be located in Seiping. This presumably never happened.) (SRS, TNCS-3/Mc2,130, 13 January 1961, info Mov-Dec 60, from an official Swedish service from usually-reliable source who Polish efficial with high-level contacts)

As of February 1961. He was reported as a VS national lecturing in feconomics at Hoscow V. Helped gather data for the Grevara's Punta del Este speech. The Balgerin's son in US was planning wist them in 61 but canceled to their great disappointment. Halperin seemed to regret having gone to the USSR and said on several occasions he would like to return to the US; always "joking" about the umpleasant aspects of life in the N. Had been offered job in Cuba and was trying decide whether accept. (SRS, 7 Sept 1962, from Cuban refugee who was Economic Counselor at Cuban Embassy Moscow Cet 60 - Feb 61)

July 1967. Their passports would have expired, requiring issuance of new ones. (Unly passports actually issued - not removed - after September 1959 had the new three-year validity instead of the old two-year validity, according to Central Processing.) We have no record of raissue of new ones, but it seems to have been done, because at the ond of 1962 Halperin spoke of keeping his US citisenship after moving to Cuba.

1 October 1962. They moved to Cuba. He was already working in a textile factory and world start teaching at Havandiniversity on 3 October. (SRS; copy of a glad-to-be-back, pro-Cuban propaganda-like letter personal letter written by Halperin). They not a big welcome in Cuba because they came from Moscow, but it scon were off and the Cubans considered his cold and pedantic. (SRS, DEA-62084, 13 January 1964)

21 January 1963. Elizabeth Mora (long-time consumist) returned to mexico from a women's congress in Havana, where she had seen the malperins. They had a mansion and servants because of his "important job," but he had aged greatly, looked old, had to do without such amenities as underwear and socks, was rationed to one tube of toothpaste every six months, etc. Wife said it was Soviet treatment that had broken him, not Cuban. They intended to stay in Cuba because of the friendlier climate and his feeling more useful there. She wanted to become a Cuban citizen so that she could visit her son and his family in mexico, but he planned to keep his US citizenship. (She, DEA-34390, 26 Feb 63)

17 June 1963. Date of VIEW 3538, IN 61623,: a VISW case officer, JOANNESS; in touch with malperin who in Vienna writing a book on the Castro impact on South America. Joanness rated him "sound non-communist leftist whehout party ties or extremist dogmatism" - ; (SRS)

October or November 1963. Published article about damage to Cuba from thurricane Flora in October. He reportedly an economist employed by Giban Government. (SSS, DRA-62084, 13 Jan 64)

16 August 1960. On this date, according to MIT article of 5 Sept 60, The called on the US Emb for renewal of his American nessport. (Reproduction of article is in with Fartim and Mitchell material in Kay Grady's MEA file.) Renewal was apparently being delayed, possibly because of renewed attempts within the ME Govt to demy passports to commit sympathizers.

Sont 60. The same MT article reported just above said that he had just ascalled a State Department report that he was working as an advisor to the Sov Govt on Latin American affairs.—Said he was professor associated with Academy of Sciences, writing book on Latin American economy 1915-58. "There is nothing mysterious or dubious about my being in Moscow. Since my arrival I have filed two US income tax returns, listing my salary and employer. I am not working for the Soviet Govt any more than Van Clibura was when he performed in a Govt-ouned concert hall. I am a visiting prof in the USSR AS and not the first American to be associated with it. My a pointment and my Soviet visa aspire in July 1961."

Subject: Current Address of Maurice Halperin

- 1. A source of this office has just advised us that he received a Christmas card (1962) from Maurice Halperin on which the return address was given as: "Apt C-2, Calle 12, no 103, Mirasar, Habana, Cuba." The only measage on the card was one of Christmas graptings. Halperin and our source have known each other for a number of years and they always exchange Christmas cards. This is the first one Halperin has sent with a Cuban address on it. The last time that our source saw Halperin was in Moscow when he (the forcer) was visiting in the USSR during August-September 1961 as part of an official US delegation.
- 2. In view of Halperin's past activities and associations, we are making this information known to you. Our source comments that Halperin always seems to show up wherever there is some sort of activity going on.

Source is a graduate engineer who served for a year in the Ednistry of Public Works following the advent of the Castro regime, and then was assigned to the Ministry of Foreign Relations and went to the USSR as Feonomic Counselor. He was in the USSR from October 1960 to February 1961. Chortly after his return to Cuba he took asylum in the Argentine Embassy where he remained more than a year until his safe-conduct was arranged. This is one of several reports from source.

This report emanated from the Caribbean Admission Center at Opa-Locka,

- 1: From October 1969 to February 1961 I served as Economic Counselor of the Cuban Embassy in the USCR. During my stay I met and became fairly well acquainted with a number of defectors from the West, including Douglas McLean, who defected from the UK, and Haurice Halmeria from the US. I did not neet Guy Burgess, because I was told that he is in bad physical condition due to excess drinking. McLean, who is now known as Frazier, likewise drinks heavily, and at a party the hostess cut down on his liquor saying, "If he drinks too much he gets in bad shape."
- 2. McLean and his family are living in Soviet Coverment-familied quarters in a new, but not elaborate, apartment building near the Ukraine Motel. Mis wife made a number of remarks to my wife about how far it is necessary to walk to get food, or anything else, in the USSN. Otherwise the did not complain. McLean made numerous jokes about shortcomings of Myring in the USSN, including comments about the elevator in his apartment building never working. He also made some half-hearted jokes about the Soviets always spitting when they spoke.
- 3. At the time I knew him he was on the stars of an English language publication,
- Maurice Malgerin was a Wi national, and I believe taught economics at a US university. He subsequently worked at the Mational Panu of Mexico, but was expelled about 1956 and went to the USGR. Halperin is now a lecturer in economics at Moscow University. Halperin assisted in gathering data used by "Che Chevara in his speech at Punta del Este, and commented about it when the speech was published.
